

Simplify incident reporting for a safer workplace

Effortlessly report and manage safety incidents with our user-friendly, centralised software.

Ensure every incident is recorded

Capture and categorise incidents with ease, allowing anyone on-site to report details in real-time. Keep your records complete and accurate, so no incident is missed.

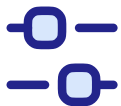

Collect and categorise incidents

Capture date, time, location, and witness details. Categorise incidents to easily share reports by type, location, or risk level.

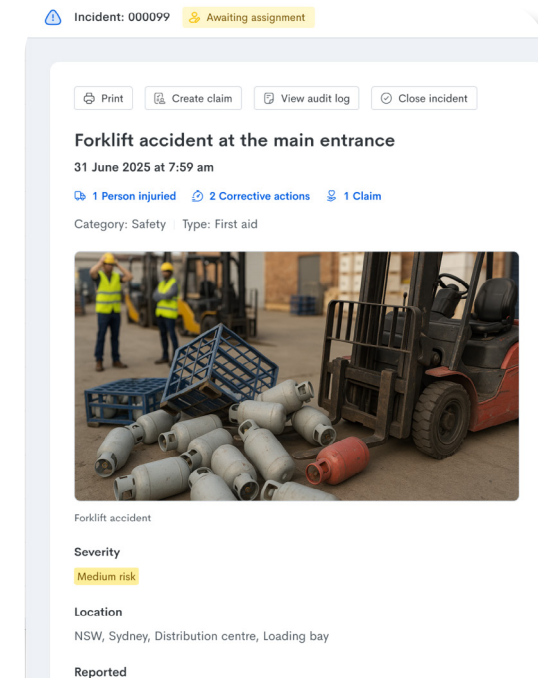

Allow anyone to report incidents

Non-administrators can prepare and submit an incident report using a unique link or QR code created for your site.

Easily manage corrective actions

Add and assign corrective actions with due dates and monitor progress with detailed audit log and reporting functionality.

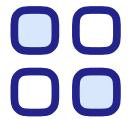

“Rapid Incident Reporting has enabled the notification and provision of incident details to be streamlined into one operation. It has also streamlined the production of performance information that is included in project tenders.”

**QHSE Manager,
Australian Camp Services**

Maintain full visibility of incidents

Centralise your data, gain deeper insights, and streamline reporting – all from one powerful platform.

Enjoy a centralised dashboard

Export to Excel and set corrective actions with due dates. Visualise data and monitor incident status.

Gain more visibility into incidents

See the total injury frequency rate across all incidents or drill down to an incident to view details of every change in an investigation.

Export data and receive reports

Filter and export data, including graphs and reports. Receive scheduled reports daily, weekly, or monthly.

80 Incidents

Incident	Incident type	Status	Assigned to

Worker sustained a laceration to the hand whil... ID: 000102 ● Medium risk	Injury - Medical treatment	Corrective action	
Conveyor belt malfunction caused significant d... ID: 000101 ● Medium risk	Process error	Partially submitted	Beryl Picke
Unauthorised access detected on the company'... ID: 000100 ● High risk	Data breach	Investigating	Felicity Lai
Forklift accident at the main entrance ID: 000099 ● Extreme risk	Injury - First aid	Awaiting assignment	

“The database has streamlined our internal method for reporting incidents and completing investigations. Our favourite feature is that we can attach all incident-related information like SWMS, induction records, photos etc. to that incident file. This is extremely beneficial when we demonstrate our reporting process to external auditors.”

Maria Hooker,
National WHS&E Manager,
Allied Pinnacle

Address key improvement areas

Capture more incidents with AI, get instant alerts and assign corrective actions to those involved in an incident.

Receive instant notifications

Managers receive instant notifications of incidents that are raised in the system.

Improve accountability with Rapid Incident Reporting

Rapid Incident Reporting allows you to assign investigations and corrective actions to employees involved in an incident.

Capture more incidents with Rapid Monitor

Rapid Monitor integrates with your existing CCTV to monitor the workplace and send alerts for a range of incidents.
